

Initiating Pathways
for Innovators
Researchers and
Entrepreneurs

- Do you want your company to become more creative and innovative?
- Do you want to look for new products/ services to strengthen your business?
- Do you have an idea for a business but don't know how to check if it is feasible?

The aims of the inspire project are to create an environment to nurture and develop...

Idea Generation

amongst innovators, researchers, entrepreneurs and SMEs and then instil the skill sets to...

Inspire Innovation

and establish commercially viable and sustainable knowledge based enterprises in the South East of Ireland and West Wales.

INSPIRE is delivered free of charge by the **Institute of Technology Carlow**, and will give you the opportunity to develop ideas with strong commercial potential while networking with entrepreneurs, businesses, researchers and innovators. **INSPIRE** will commence in Spring 2013.

INSPIRE (Initiating Pathways for Innovators, Researchers and Entrepreneurs) is part financed by the European Regional Development Fund through the Ireland Wales Programme 2007 - 2013 and is delivered by Pembrokeshire County Council and the Institute of Technology Carlow.
