

Overview

You will:

- create interactive presentations using hyperlinks
- **embed and** link YouTube & other videos
- take screen clippings
- animate text & images
- match colours with Pixie

... but first ... keep simple, active learning, handouts

eLearning Development Officer

Keep simple

- Readable: black writing on white background
- Minimise text, use appropriate font & font size
- Use custom animation sparingly

How NOT to use PowerPoint!

Don McMillan

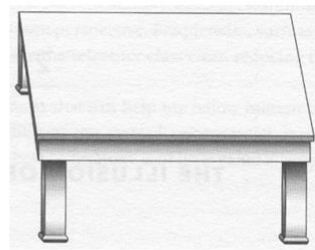

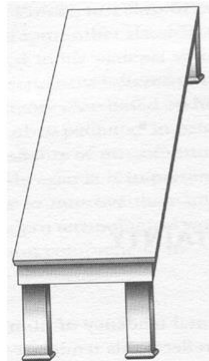

Activity: What do you think?

- Write down a definition of statistics?
- Compare to the person beside you
- Be prepared to share with the class your definition

Add activities

CLASSROOM OPINION POLL

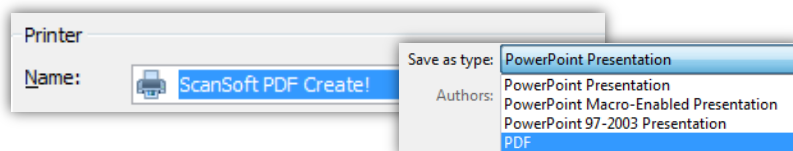

Use classroom
assessment
techniques

Which table is longer?
Left or Right?

Creating effective handouts

- Produce your presentation
- Save a copy as a student version
- Modify copy to make handout
 - pose questions / blanks in student version
(answer can entrance by Custom Animation in original presentation)
- Create PDF to hand out or upload to Blackboard

Inserting Hyperlinks

- Hyperlink to a website
- Hyperlink to a file
- Hyperlink to another slide
- Hyperlink on an image

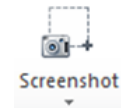

Embedding a YouTube video

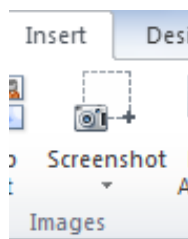

Using custom animation
